

POPA LAURENTIU

WEB DEVELOPER

OBJECTIVE

Looking for any challenge in which I have the opportunity to work with NextJS, React and more.
Also, available for relocation, it is much more important to have a professional place to develop a career in IT.

PERSONAL PROFILE

A self-taught person who has gone through professional retraining in IT, passionate about technology in general and especially to use it to solve problems and create new things.

PERSONAL DETAILS

Birth date: 18.07.1980

CAREER SUMMARY

WEB DEVELOPER

Professional Retraining | May 2020 - Present

- [Portfolio](#)

A place to put the best projects.

- [Blog](#)

A simple blog made in Express-NodeJS, EJS-templating engine and using MongoDB as storage.

- [RecipesSearch](#)

An application in Next-the React framework, for searching recipes built around edamam.com/food-database-api.

- [Bookstore](#)

A CRUD app in which you can see the books stored in MongoDB and can edit or delete. Other technologies used are Chakra UI, React Query and NextJS.

- [Star-Wars](#)

Using data from the Star Wars API, it is displayed on multiple pages and cached using React Query.

- [SmallStore](#)

A small store that promotes mixed products, displaying the store's position on google-map.

- [Other projects on GitHub](#)
